Experience

USC – University Southern California | Program Analyst
Los Angeles, CA | May 2023 – Present

Documented application functionality through the creation of user manuals and technical specifications. Maintained and monitored application performance, troubleshooting issues, and implementing updates or bug fixes for optimal functionality. Served as the central liaison for multiple applications, providing effective troubleshooting support. Additionally, developed new applications customized for various departmental needs, collaborating with stakeholders to identify requirements, design user-friendly interfaces, and implement robust functionalities.

Tech Stack: HTML, CSS, Bootstrap, Coldfusion, Wordpress, Microsoft Suite, SQL

IQAir | Web Developer

La Mirada, CA | Jun 2021 – Jan 2023

Conducting Front End Development and crafting user interfaces to enhance overall user experience while adhering to industry best practices. Collaborated closely with marketing and content teams to seamlessly integrate innovative functionalities, demonstrating expertise in Angular.js and Drupal CMS technologies. In Drupal, I created new features, taxonomy and modules updates, created new fields and paragraph types and Disclaimer. Spearheaded the implementation of effective SEO strategies, leading to a significant boost in organic traffic. Proficiently employed Google Tag Manager to track and configure tags, enabling data-driven decision-making. Additionally, played a key role in the successful integration and optimization of a Shopify platform. Successfully developed and oversaw the management of a multi-regional website, showcasing a comprehensive skill set in Drupal and Angular technologies. |
